

Appl. No. 10/026,753
Amdt. dated March 22, 2005
Reply to Office action of September 22, 2004

Page 2

IN THE SPECIFICATION:

Please amend the specification at page 7, lines 18-23 as follows:

$$AASA = \left(\frac{S - S^o}{S} \right) \left(\frac{100}{10} \right)^n$$

where S: optical density obtained without enzyme
 S^o: optical density obtained for the sample
 n: dilution of the sample.
